5. WEIGH-IN AND SIFTING

Fair weigh-in is Tuesday, September 19, 2023. Exhibitors will have from 3:00 pm until 7:00 pm to weigh-in. Unloading- Designated unloading areas will be marked. Steers can be unloaded into the arena and tied to the fence or put in their pen until ready to weigh. Pigs, lambs and goats can be put in their pens until ready to weigh. Pig unloading: There will be a designated area to unload trailers close to the

pig barn, but you will not be allowed to back up to the pens. The Exhibitor must be able to walk his/her pig from the designated unloading area to the pig barn.

Weighing- Upon arrival at the Fairgrounds the Exhibitor (not a Leader/Parent) is to check in with the Livestock Committee and all fair documents must be submitted before the animal is weighed. All animals must be dry and cleaned of excessive debris when weighed. You will be notified of the weight of your animal during the weigh in time frame and if you so choose, you can re-weigh **once** during the time frame up until 7:00 pm, which at that time, the weight of your animal will be official.

Sifting- All animals must be evaluated and approved by the sifting committee. Sifting will begin once the sifting committee arrives. Only the Exhibitor will handle his/her animal from the time it enters the holding area during sifting and weighing until excused by the sifting committee. Only the Exhibitor, sifting committee and the committee's helpers will be allowed in the sifting area. The judgement of the livestock and sifting committee is final. The Livestock Superintendent has the right and responsibility to reject any livestock exhibit showing evidence of disease, infection, or safety hazards to other animals, spectators or Exhibitors throughout the entire duration of the Fair. All market steers, lambs and goats must be dehorned (regrowth up to 1 ¼ inch will be allowed). Animals will be sifted if they exceed the maximum age. Unmanageable animals will be sifted and must be removed from the fairgrounds immediately. The sifting committee may sift at any time during the fair if an animal is unmanageable by the Exhibitor. Minimum weights will be strictly enforced, underweight animals will be sifted from the market class and cannot be sold in the Gila County Fair Livestock Auction. Underweight animals that are manageable may be used in the showmanship class to allow the Exhibitor to complete the year's project and they may also enter a prospect class. No excessive shrinkage of animals will be tolerated regardless of the distance traveled to weigh-in. The Gila County Fair Board and Livestock Committee wish to publish to the buyers the true and accurate weight of the animals at the official weigh-in. If any 4-H/ FFA member is concerned about shrinkage, the Livestock Committee suggests that the members arrive a day early at or near weigh-in site in order to give the animal the best opportunity to recover any lost weight. It is the responsibility of the 4-H/ FFA member to sell his/her own sifted animal. No advertising or "for sale" signs will be allowed in the livestock area.

*The use of prohibited substances in any animal such as antibiotics, growth stimulants, or tranquilizers without the prescription of a licensed veterinarian and proper documentation, is strictly forbidden by the Gila County Fair Rules and Federal Law. The fair Livestock Superintendent and/ or fair veterinarian may require drug testing on any animal exhibited at the Gila County Fair. Other causes for disqualification of Exhibitors include:

- a) Unnecessary roughness or abuse of animals.
- b) Unsportsmanlike conduct on the part of Exhibitor, parent or leader.
