Cont.-must go through the NEW-MANDATORY Check-in process as well. IF YOU DON'T "CHECK-IN", YOUR ENTRY WILL BE SCRATCHED

Pig unloading: Pig unloading: There will be a designated area to unload trailers close to the pig barn, but you will not be allowed to back up to the pens. The Exhibitor must be able to walk his/her pig from the designated unloading area to the pig barn.

Weighing: Upon arrival at the Fairgrounds the Exhibitor (not a Leader/Parent) is to check in with the Livestock Committee and all fair documents must be submitted before the animal is weighed. All animals must be dry and cleaned of excessive debris when weighed. You will be notified of the weight of your animal during the weigh in time frame and if you so choose, you can re-weigh **once** during the time frame up until 7:00 pm, which at that time, the weight of your animal will be official.

Sifting: All animals must be evaluated and approved by the sifting committee. Sifting will begin once the sifting committee arrives. Only the Exhibitor will handle his/her animal from the time it enters the holding area during sifting and weighing until excused by the sifting committee. Only the Exhibitor, sifting committee and the committee's helpers will be allowed in the sifting area. The judgment of the livestock and sifting committee is final. The Livestock Superintendent has the right and responsibility to reject any livestock exhibit showing evidence of disease, infection, or safety hazards to other animals, spectators or Exhibitors throughout the entire duration of the Fair. All market steers, lambs and goats must be dehorned (regrowth up to 1 ¼ inch will be allowed). Animals will be sifted if they exceed the maximum age. Unmanageable animals will be sifted and must be removed from the fairgrounds immediately. The sifting committee may sift at any time during the fair if an animal is unmanageable by the Exhibitor. Minimum weights will be strictly enforced, underweight animals will be sifted from the market class and cannot be sold in the Gila County Fair Livestock Auction. Underweight animals that are manageable may be used in the showmanship class to allow the Exhibitor to complete the year's project and they may also enter a prospect class. No excessive shrinkage of animals will be tolerated regardless of the distance traveled to weigh-in. The Gila County Fair Board and Livestock Committee wish to publish to the buyers the true and accurate weight of the animals at the official weigh-in. If any 4-H/ FFA member is concerned about shrinkage, the Livestock Committee suggests that the members arrive a day early at or near weigh-in site in order to give the animal the best opportunity to recover any lost weight. It is the responsibility of the 4-H/ FFA member to sell his/her own sifted animal. No advertising or "for sale" signs will be allowed in the livestock area.

*The use of prohibited substances in any animal such as antibiotics, growth stimulants, or tranquilizers without the prescription of a licensed veterinarian and proper documentation, is strictly forbidden by the Gila County Fair Rules and Federal Law. The fair Livestock Superintendent and/ or fair veterinarian may require drug testing on any animal exhibited at the Gila County Fair. Other causes for disqualification of Exhibitors include:

- a) Unnecessary roughness or abuse of animals.

PROTECTIVE GEAR

As of January 1, 2015, Arizona 4-H requires that an industry approved ASTM/SEI equestrian helmet be worn by all Arizona 4-H members when they are **mounted** on a horse and participating in an Arizona 4-H horse event/activity/project meeting. The harness must be secured and properly fitted. Any rider violating this rule at any time will be immediately prohibited from further riding until such headgear with a three point harness is properly in place. It is the responsibility of the rider, or the parent or guardian of the youth exhibitor to see to it that the headgear worn complies with the appropriate safety standards for protective headgear intended for equestrian use, is properly fitted, and is in good condition. An approved helmet is one that carries the approval stamp of the United States Pony Club (USPC) Safety Committee or any other recognized authority that establishes standards of safety for protective headgear. An approved helmet must be worn by Exhibitors while in the show ring, staging areas or practice arenas or whenever they are **mounted** on a horse. Gatekeepers will check before allowing competitors to enter the arena. Refusal to wear a helmet is an automatic disqualification from an event.

CANNING

CANNING SPECIAL REGULATIONS

1. All items must be made by the exhibitor since the previous fair.
2. Exhibitor's name must NOT be on jar. All jars must be labeled with:
 - Product name
 - Method of preservation, i.e. hot water bath or pressure cooker
 - Length of processing and altitude at which processed
 - Date of canning.
3. If the exhibitor chooses to have the larger jar remain unopened, an additional sample (4 ounce sealed container of the entered food) can accompany the entry. The entry will be judged based upon the food in that 4 ounce sample jar.
4. Canned products must be in standard canning or jelly jars or jelly glasses. No mayonnaise or other product jars will be accepted.

All jars must have proper headspace:

- Pickles, canned fruit and juices, ½ inch
 - Vegetables, 1 inch
 - Jellies, ¼ inch
 - Meat, poultry and fish, 1 ¼"
5. No wax, paraffin, etc., accepted. All entries must be in sealed jars except in FREEZER JAMS.
 6. Rings should be free from rust and scratches. Jars with rings that cannot be easily removed will not be judged.
 7. DEFINITIONS:
 - JAM – Fruit boiled with sugar to a thick consistency, without preserving the shape of the fruit.
 - JELLY – Combination of fruit juice or juices with the right proportion of sugar, which cooked to the right stage, becomes a clear, sparkling tender, transparent, quivering mold.
 - BUTTER – Smooth, even fine grained mixture of medium soft consistency, with no evidence of juice as a separate liquid. Butters are less sweet than jams.
 - PRESERVES – Usually made of one fruit. More than one may be used. The fruit is whole or cut into large pieces and cooked in a syrup until clear and transparent, tender, firm crisp and plump. The shape of the fruit is retained. The juice is of a thick consistency, and enough to surround the fruit.
 - MARMALADE – A clear jelly-like preserve with fruit, usually citrus, suspended in small pieces.
 - CONSERVE – Jam-like product of two or more fruits, cooked to jam-like consistency with sugar. Usually contains nuts or raisins.
